

## ABOUT THE STATE

## HAPPENINGS OF INTEREST FROM DIFFERENT SECTIONS

Between Sunday morning and Tuesday morning, six persons died in Bellows Falls, their ages being 71, 75, 66, 63, 84 and 15.

Mr. and Mrs. John Crosby held open house at their home in Rutland Wednesday, the event being the celebration of their 50th wedding anniversary.

Ice cutting has begun on the Connecticut river at Bellows Falls, this being the earliest in several years that it has been thick enough to harvest. It is now 11 inches thick.

John Stevenson, aged 75 years, a veteran of the Civil war, died Jan. 9 at his home in Rutland. He was an employee of the Howe Scale company.

By a decision of the supreme court, the estate of Harriet C. Peck of Burlington has been settled, after being in court for 13 years. Involved in the litigation was \$150,000.

Dorothy Bishop, a little Bellows Falls girl, while riding with her grandparents, Mr. and Mrs. Stephen Bishop, received several bad cuts and bruises Wednesday when the sleigh runners caught in the car tracks and overturned the vehicle.

Seventy-two fire alarms were turned in in Rutland in 1916, 17 from boxes and 54 by telephone. On 13 occasions only did the auto truck and horse wagon both go to the fires. The loss was quite large, being over \$30,000.

Nearly \$350,000 was expended for building operations in Springfield during 1916. Twenty new residences were built, three new blocks, a schoolhouse, additions to manufacturing concerns, and much remodeling, garage building and small changes and improvements were made.

O. O. Ware, who for 31 years had been a trustee and treasurer of the Union Congregational church at Wilmington, and was the oldest officer in point of service, resigned at the annual meeting of the church last week. C. H. Parmelee, who has been clerk for nearly as long, was re-elected to that office.

The Pollard Manufacturing company have closed their shop in Chester after 21 years' business there. It was the only business in town where women could be employed and at one time about 90 women were on their pay roll. The machines were sold to a firm in New York and the stock left over was sold at auction.

Robert, young son of Mr. and Mrs. Frank Lehr of Rutland, coasted into a delivery sleigh a few days ago and was badly cut on one knee. Mrs. Rena Sargent Baker of Rutland, while riding in North Claremont Sunday, had one leg badly broken when her sled ran into a fence. Waldo S. Chase, a Windsor jeweler, saw a traverse loaded with coasters coming down a hill as he was walking in the road and crossed to get out of the way, but the one who was steering lost control of the sled and ran into Mr. Chase, breaking his left leg.

## The Spread of Dryness.

The decision of the Supreme court upholding the state law of West Virginia forbidding the importation of liquor for personal use is downright and reverberating. No state hereafter can say one thing and mean another, if prohibition laws are passed they can be enforced and no legislature can squirm out of that knowledge and responsibility.

Word comes from West Virginia that the officers of that crusader state propose to live up to their opportunities and that the local prohibition laws will be enforced hereafter with greater stringency than ever. The state tax commissioner, Mr. F. O. Blue, makes this announcement and adds that all kinds of state laws will be stiffened thereby. This decision seems to be most sweeping of all existing prohibition laws. It is hailed by the Anti-Saloon league as an effective weapon against bringing liquor into prohibition states, and this contention seems to hold water perfectly.

It is very likely that common cause will be made with the prohibitionists by the new Farmers' union which originated in North Dakota and is spreading through the West like a brush fire. This new organization has dried up most of the territory over which it carries influence.—New York Evening Sun.

## Inexorable Fate.

An old maid on the wintry side of fifty, hearing of the marriage of a pretty young lady, her friend, observed with a deep and sentimental sigh: "Well, I suppose it is what we must all come to."

## City Water Department Meter Bills.

Meter accounts for the quarter ending Dec. 31, 1916, are now due and payable at the water office. Ten per cent will be added if not paid on or before Jan. 13, 1917. Office hours: 8 to 12 a. m., 1:30 to 5 p. m.; Mondays and Saturdays, 7 to 9 p. m. F. O. Lee, Supt.

## Ben Franklin Said:

"Time enough always proves little enough." If next week is time enough to buy life insurance, buy it to-day and buy it here. 68th year. National Life Ins. Co. of Vt. (Mutual). S. S. Hall, general agent, Rialto building, Montpelier, Vt.

## Sick Children Made Well

Worms sap the health and vitality of your child. Familiar symptoms of worms are: Drowsiness, stomach, offensive breath, hard and full belly with occasional gripings and pains about the navel, pale face of leaden tint, eyes heavy and dull, twitching eyelids, itching of the nose, itching of the rectum, short dry cough, little red spots sticking out on tongue, starting during sleep, slow fever.

You can absolutely depend upon Dr. Wm. E. Elster, the Family Laxative and Worm Expeller, to expel worms and tone up the stomach, bowels and general health.

Mrs. Geo. Hill of Wells, Me., writes: "I am so glad to recommend your Dr. Elster's Laxative. It has done for her baby what I could not do for her. She is now healthy and happy. Write to me for a free trial bottle. Write to me for a free trial bottle. Write to me for a free trial bottle."

Dr. Elster.

## LADIES! LOOK YOUNG, DARKEN GRAY HAIR

Use the Old-Time Sage Tea and Sulphur and Nobody Will Know

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from our drug store a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe, improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray has disappeared; by another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.—Adv.

## NATIONAL PARK IN VERMONT

Is Suggested By President Thomas of Middlebury College.

Middlebury college issued to-day a bulletin containing the annual report of President John M. Thomas.

Attention is called to the gift of the late Joseph Battell, a Middlebury alumnus and trustee, to the United States government of 3830 acres of Vermont forest land for the purpose of a national park. This land is situated in Lincoln and Warren, on the main ridge of the Green mountains. The long trail of the Green Mountain club extends the entire length of the tract.

President Thomas suggests a much larger national park for Vermont. He says:—

"If the United States accepts this device and establishes a national park in Vermont, the project should be enlarged to embrace a much larger area of the Green mountains. I venture to suggest that an endeavor be made to include in the proposed park a strip along the height of land extending from the tract devised by Mr. Battell southwards at least as far as the highlands from Brandon to Rochester. I have in mind the crest of the ridge, extending down the mountain on either side sufficiently to allow construction of a scenic highway along the entire length. Such a Green Mountain National park would admit of a magnificent drive through the highest and wildest land in the state, commanding views of both Lake Champlain and the White mountains, and through most of its length through grand virgin forests. It would speedily become one of the most popular recreational regions in the entire country. It would lend distinction to Vermont as a recreation region and benefit the entire state. Within easy reach of the great centers of population it would beget value to countless numbers who can not visit the national parks of the west.

Mr. Battell's noble purpose should not be allowed to fail, but should be enlarged to meet the improved methods of transportation which have been effected since his will was written. A national park extending for twenty-five miles along the summit of our mountains, approachable at three points both from the east and from the west from three main highways over passes of the Green mountains, easily accessible therefore to all travelers by our main north and south state roads, is something which should appeal to every patriotic Vermonter, and one might expect that the project would commend itself to lovers of natural beauty and of the great outdoors throughout the entire nation. Middlebury college would render a notable public service if it could in any way help toward the establishment of such a park.

That part of the report concerning the college shows clearly the healthy growth of the institution. Attendance, exclusive of the summer session, has increased in the past eight years from 222 to 372, an increase of 68 per cent. The problem now confronting the college is not to secure attendance, but to provide adequate facilities and endowment.

In the past eight years 214 acres of land and nine buildings with a total value of \$463,547.22 have been added to college property, but the rapid growth of the college demands still larger facilities and endowment. New professorships as well as new buildings are needed, and a million dollar endowment is the ambition of President Thomas.

The administrative offices of the college are scattered about in a number of different buildings. For the convenience of all concerned these offices should be closely grouped, and because of its central and commanding views, the old chapel should be used for this purpose. In order to do this many classes now reciting there would have to be moved elsewhere and another building is necessary.

President Thomas suggests, therefore, a building known as Vermont hall to be devoted to the studies of special importance to the college as a Vermont institution and to symbolize its loyalty to the state to which it owes so much, and to further especially those studies by which young men and women are prepared for intelligent citizenship in the Green mountain state. It should be built of Vermont material and in the style of architecture the forefathers practiced. It might well enshrine a portrait of Daniel P. Thompson of the class of 1820, author of "The Green Mountain Boys"; the book which created the fame of the founders of the commonwealth and made Vermont the symbol of courage and strength.

Who Will Claim Them?

Letters remaining unclaimed for at the Barre postoffice for the week ending Jan. 11 were:

Men—Royal Clark, Coning Cardini, John J. Fitzpatrick (3), Domenico Giannini, Joe Gomez, Wm. George, Louis Gomez, D. W. Haynes, M. Minto, John Monti, Luigi Cuyano, C. Rogers, Isaac Robinson, Romualdo Sota, Carlo Trentini, Dr. J. R. Richard.

Women—Mrs. Alice Allen, Gertrude Constine, Mrs. Santina Conelli, Miss Christine Pelloni, Mrs. Victoria Fornace, Laura Laplante, Emma Martin, Miss R. McLaughlin, Mrs. Wm. Marshall, Elizabeth Parkhurst, Mrs. Ray Rich, Mrs. George Sloughy, Mrs. Jane Thayer, Mrs. Bert Wheeler.

## RAILROAD TAXATION.

Statement of Vermont's Revenue from Corporations.

Following is a schedule of appraisals on railroads, cars, steamboat and transportation companies and transmission lines in Vermont, together with the revenue therefrom:

Corporation	Appraisal	1% per cent	3% per cent
Atlantic & St. Lawrence	\$1,405,760	\$14,057.60	\$42,172.80
Barre & Chittenden R.R. Co.	621,000	6,210.00	18,630.00

## Corns Peel Right

Off With "Gets-It"

a Drops, and the Corn Is a "Goner!"

When you've got to walk on the sides of your shoe to get away from those awful corns, there's only one common-sense thing to do. Put 2 or 3 drops of "Gets-It" on the corn.

"Gets-It" is sold everywhere. 25c a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Barre and recommended as the world's best corn remedy, by F. G. Russell and E. A. Brown.—Adv.

Right away. Pain and inflammation will disappear. The corn will begin to shrivel and fall off instantly—then it loosens and falls right off. There's no other corn-remover in the world that will do this. "Gets-It" is a new discovery. It has been used in corn-removers since "Gets-It" was born. Don't forget that fact. "Gets-It" does away forever with the use of salves that irritate, bandage that make a bundle of your toes, plaster that half do the work, knives and scissors that draw blood. Use "Gets-It"—no more directing or cutting.

Sold in Barre and recommended as the world's best corn remedy, by F. G. Russell and E. A. Brown.—Adv.

Use "Gets-It" Your Corns Won't Grow in Water. Beware of the "Shrivel, Loosen and Peel Off!"

## GIRLS! DRAW A MOIST CLOTH THROUGH HAIR, DOUBLE ITS BEAUTY

Try This! Hair Gets Thick, Glossy, Wavy and Beautiful at Once

Immediate!—Yes! Certain!—that's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Dandarine hair cleanse. Just try this—moisten a cloth with a little Dandarine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Dandarine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair; but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a 25-cent bottle of Knowlton's Dandarine from any drug store or toilet counter and just try it.—Adv.

Immediate!—Yes! Certain!—that's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Dandarine hair cleanse. Just try this—moisten a cloth with a little Dandarine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Dandarine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair; but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a 25-cent bottle of Knowlton's Dandarine from any drug store or toilet counter and just try it.—Adv.
